Apparently this formatting error in the Specification occurred as a result of a printing error by the Patent and Trademark Office during the printing of this patent. However, since these formatting errors do not affect the scope or substance of the patent, it is unnecessary to request a formal Certificate Of Correction. Instead, it is requested that this Letter be placed in the Patent and Trademark Office file for this patent to provide the public with notice.

The undersigned also notes a minor typographical error in the form of dependent claim 14. The preamble of the claim recites "The sign as claim 13", when it is apparent that the preamble of the claim should actually recite "The sign as claimed in claim 13". In view of the obvious nature of this minor typographical error which does not affect the scope or substance of dependent claim 14, it is requested that this Letter be placed in the Patent and Trademark Office file for this patent to provide the public with notice.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Mark P. Stone", is written over the typed name.
